

LOW INCOME AMONG PERSONS WITH DISABILITY IN CANADA

Different factors are considered in determining the relationship of disability with low income.

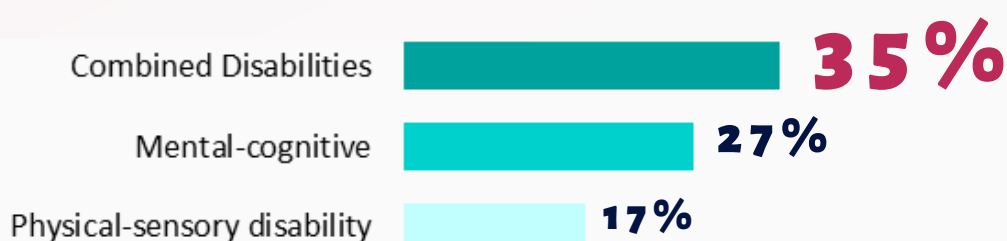

OVERALL POPULATION AGED 25 TO 64

LOW INCOME

- ✳ 20% or 1/5 of the total population aged 25 to 64 are with disability
- ✳ 23% of the said proportion are with low income

RATES BY DISABILITY TYPE

- ✳ Low income rates differ by disability type.

RATES BY FAMILY COMPOSITION

**ABOVE
50%**

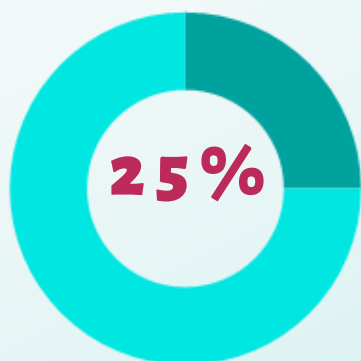

Lone parents and persons living alone

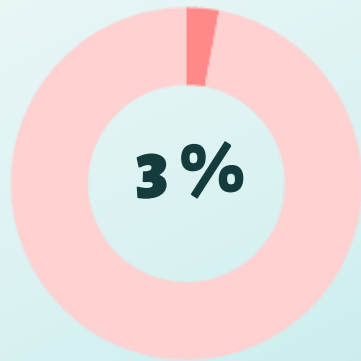

8%

Persons with a disability who lived with a spouse who did not have a disability

UNATTACHED PEOPLE AGED 45 TO 64 AND LONE PARENTS WITH DISABILITY

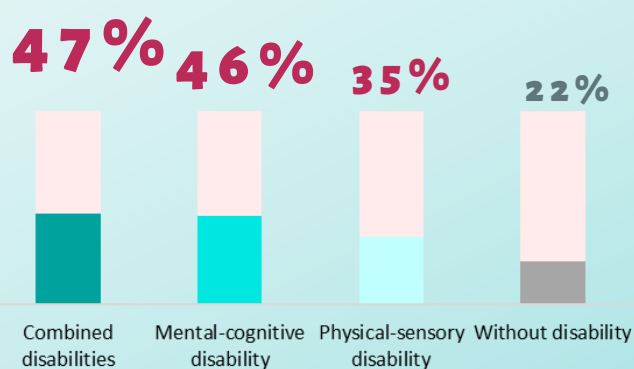

LOW INCOME

NON-LOW INCOME

UNEMPLOYMENT AND LOW INCOME

- ✳ There is a higher percentage of persons with disability that are unemployed and with low income than those without disability.

The associated factors in low-income rates among persons with disability provide a better understanding on how to further analyze the possible solutions to improve the income rates.
